

The diagram shows a central node, represented by a shaded, irregular polygon. Five peripheral nodes, labeled E1, E2, E3, E4, and E5, are connected to this central node. E1 is at the bottom, E2 is at the top left, E3 is at the top, E4 is at the top right, and E5 is at the bottom right. Each peripheral node is connected to the central node by a single line. There is also a curved arrow pointing from E2 towards the central node.
