

Figure 1 consists of two parts. Part (a) shows a top-down view of a 4x4 array of red rectangular resonators on a gray substrate. Part (b) is a schematic of a single resonator, showing its dimensions:  $L_1$  (height),  $L_2$  (width), and  $W$  (width of the central loop). A red line traces a path around the central loop, indicating the resonant mode.
